

WOULD MAKE AN IDEAL GOVERNOR

Ex-Senator Baxter of Grant County Endorses Senator Whitehead.

IS BROAD-MINDED

Janesville Man Has Many Warm Friends in Lancaster and Grant County.

RIORDAN ALSO IN LINE

Ex-Senator C. H. Baxter of Lancaster was in the city yesterday on his way home from Chicago, says the Milwaukee Sentinel this morning. He represented that district in the senate for eight years, on one of the most important legislative committees. For four years he was very closely associated with Senator John M. Whitehead, and when asked to give his views on his probable selection as a candidate for governor, he said: "Senator Whitehead is a splendid man. I know him and like him. He is honest, able and courageous. He won't allow any man or set of men to run him or dictate to him, to the detriment of the republican party. At the same time, he is always ready to listen to reason and heed the counsels of men whose advice is worthy of consideration."

Make an Ideal Governor
"In my opinion Whitehead would make an ideal governor. He is a man that all good men can support. I personally know that he has, since he became a senator, been identified with all legislation of the very highest character, and for the best interests of the people."

"I never found him bigoted or lacking in liberality of view. He is broadminded. I do not believe that Senator Whitehead would ever allow his ambitions to control him to the prejudice or harm of the interests of the public. It seems to me that Whitehead is entitled to a place far in advance of the one he occupies in his own esteem."

Many Friends in Grant County
"In Grant county and in Lancaster, so far as Senator Whitehead is known he is very well liked and creates a very favorable impression wherever he is known. Personally I like him and am perfectly willing to go on record in his support. So far as the political sentiment of Lancaster is concerned I know that there is a change of sentiment, and this is also true of Grant county. There are a number of strong republicans who have heretofore supported LaFollette who seriously doubt the advisability of his re-nomination."

For Interests of the Party
Oshkosh, Wis., Jan. 18.—State Senator D. E. Riordan of Eagle River, Wis., was in the city yesterday and conferred with local republicans. Senator Riordan stated that it was his opinion that the Whitehead movement was in the interests of the party, and characterized LaFollette as a "dangerous factor and menace to the state." Mr. Riordan has been in the state senate with Mr. Whitehead six years, and states emphatically that if chosen governor his administration could not be other than satisfactory.

Whitehead in Manitowoc
Manitowoc, Wis., Jan. 18.—The announcement that Senator John M. Whitehead is a candidate for governor has met with general favor among the rank and file of the republicans of this city. His candidacy is supported by such men as Assemblyman J. C. Kress, his speech on Taxation, delivered before the Madison O'Clock club, has been freely circulated throughout the city and county, and is lauded by both republicans and democrats. The followers of Gov. LaFollette in this county are few, being composed largely of lawyers who recently graduated from Wisconsin University. The petitions for Senator Whitehead have not yet arrived but he will have a liberal endorsement in Manitowoc county.

EX-GOV. HOARD ILL AT WASHINGTON

He Has Been Confined to His Room by Sickness, But is Now Said To Be Improving.

Washington, D. C., Jan. 18.—Former Governor William D. Hoard has been confined to his room here by illness the past two days but is now improving. Governor Hoard is working hard in the interests of the anti-lobby legislation and the task has told on his strength. He performed a remarkable feat of standing before the committee on agriculture for three hours on one day making a talk in favor of the pending legislation and in submitting to the cross-questioning by members of the committee.

WILL NOT POSTPONE THE ST. LOUIS FAIR

St. Louis, Jan. 18.—The World's Fair officials remain firm in the declaration that a postponement of the opening for next year is not anticipated. Secretary Stevens said this morning that the contracts for the eight main buildings would be let during the coming week and that the contracts stipulate that the structures must be finished Oct. 1, 1903.

FATALLY INJURED BY SAVAGE WOLVES

Wisconsin Farmer Near La Crosse Is Attacked by a Pack and Badly Bitten.

La Crosse, Wis., Jan. 18.—As a result of a running fight in his barnyard with a pack of wolves, Olaf Lindestrand lies probably fatally injured at his home a few miles north of this city. Wolves have been particularly troublesome in this vicinity of late. Lindestrand was awakened last night by a commotion near the stables. Upon investigation he found two dead and partly devoured hogs in the pen. Knowing that his was the work of wolves he started to the house for a weapon, but in climbing the fence, the lantern, his only protection, was extinguished.

In the darkness he could distinguish the coal like eyes of a dozen wolves. He ran, but the pack was immediately upon him. Several times they dragged him down, lacerating his flesh terribly, but he struggled on and gained the shelter of his house, where he fell unconscious on the floor. His death is hourly expected.

DAVE ROSE WILL BE A CANDIDATE

He Wants To Be Mayor of Milwaukee and Not Governor of Wisconsin.

A Statement is Expected.

Milwaukee, Wis., Jan. 18.—There never has been any question as to whether Mayor Rose would be a candidate for the re-election for a third term in the spring, although the mayor has been non-committal on the subject when asked to about it. For this reason the democratic county committee has addressed a letter to him asking for an expression on the subject, so that there shall be no doubt as to his candidacy, and "clear the political atmosphere for those who may enter the field" should the mayor decide to retire.

A close friend of the mayor's said last night that he would within the next twenty-four hours send to the committee a brief letter announcing that he would again be in the field, in response to a call that, he says, is general among all classes of citizens, except the prohibitionists. He will say that he is desirous of an opportunity to complete a number of improvements for which his administration is responsible, and for which it is entitled to credit and for this reason he will sacrifice his private business. It is also said that the mayor has no notion of becoming a candidate for the governorship and that he is telling his friends to "drop the subject."

FRANK RAKOWSKI WAS DEGRADED

Astoria, Ore., Jan. 18.—Frank Rakowski, the regular soldier, taken to Alcatraz prison to serve a ten year sentence for threatening to assassinate President Roosevelt, was degraded yesterday at Fort Canby. Rakowski declared while intoxicated that McKinley got what he deserved and that he would give Roosevelt the same dose when his term of enlistment expired.

STILL HAVE HOPE FOR MRS. MAYBRICK

London, Jan. 18.—The Baroness De Roque, mother of Mrs. Florence Maybrick, serving a life sentence for the alleged murder of her husband, is confident her daughter will soon be pardoned. She stated she had received semi-official assurances that the pardon will come during the coronation celebration.

DEBATE IS WON BY WHITEWATER BOYS

Milwaukee, Jan. 18.—Whitewater normal school won the decision from Milwaukee normal in a joint debate last night with the negative side of the question:

"Resolved, That municipal ownership and operation of water works, lighting plants and rapid transit lines is sound in principle, practicable and desirable."

The decision of the judges stood two for the negative and one for the affirmative. Acting President E. A. Birge of the university of Wisconsin and President W. L. Rankin of Carroll college standing for the negative and Professor Frederick Clow, of Oshkosh normal for the affirmative.

JEFFERSON COUNTY FAIR

Association Officers Elected and Plans Made for 1902

Jefferson, Wis., Jan. 18.—The annual meeting of the County Fair association was held yesterday afternoon. The following officers were elected: R. J. Washburne, Palmyra, president; J. H. McGowan, Fort Atkinson, vice president; O. F. Roemer, Jefferson, secretary; F. P. Kierpert, Jefferson, treasurer; Joseph H. Winterling, Jefferson, marshal. The date of the fair of 1902 was set for Sept. 23, 24, 25 and 26. The above officers and the following are the executive committee: William Higgins, Hubberton; F. A. Huebner, Aztalan; J. William Held, Jefferson; William Becker, Fort Atkinson; and George M. Hausz, Sr., Koshkonong. It was voted to expend \$2,000 in improvements the coming year. The last year was the most successful of any in the history of the association.

BOERS TO OFFER TERMS OF PEACE

Will Hold a Meeting at Hague to Consider the Matter.

DR. KUYPER LEADER

Plans Are Being Formulated to End the War in South Africa.

KITCHENER DENIES IT

Amsterdam, Jan. 18.—The Boer delegates here today sent Premier Salisbury an ultimatum of their willingness to waive any demands for independence in South Africa. The republicans are now awaiting the next move on the part of the British government.

London, Jan. 18.—The newspapers give prominence to a Brussels dispatch asserting that the visit of Dr. Kuyper, prime minister of the Netherlands, to England was made in connection with the re-establishment of peace in South Africa. The dispatch says Dr. Kuyper advised the Boer delegates to allow it to be known on what basis they would be willing to negotiate for peace. The delegates demurred, but ultimately a meeting of the delegates and Dr. Kuyper was arranged to take place in Brussels on Jan. 1. Dr. Kuyper then offered to personally ascertain in London whether the British government genuinely desired peace, but he first requested to know the terms on which the delegates would open negotiations. After five hours' discussion the terms were agreed upon and Dr. Kuyper went to London, having emphatically assured the Boers that the Netherlands government would on no account act as intermediary for them with Great Britain. The Amsterdam correspondent of the Daily Mail says it is definitely known that the recent visit to London of the Dutch premier, Dr. Kuyper, resulted directly from Kruger and the Boer delegates having been persuaded officially to waive their claim for independence, pending approval by the Boers who are still fighting. A prominent gathering of Boers has been arranged for to-morrow at The Hague, at which it may be decided to make tentative overtures for peace.

KITCHENER DENIES CRUELITIES

Says Botha Is Directly Responsible for Concentration Camps.

London, Jan. 18.—In a blue book issued on the subject of the concentration camps in South Africa Lord Kitchener emphatically denies Commandant Schalk-Burger's allegations of forcible removal and exposure of pregnant women and of rough and cruel treatment of women and children, and says: "I offered Botha to leave the families and relatives of fighting burghers in undisturbed possession of their farms if Botha would agree to spare the farms of the families of surrendered burghers. Botha emphatically refused, saying: 'I am entitled to force every man to join, and if they do not join, to confiscate their property and leave their families in the field.'"

The blue book states that for December, when there were 117,017 inmates of the camps and 2,330 deaths, of which number 1,767 were children.

OSIAN F. BIRD TO RETIRE

Commercial Agent of the Milwaukee Road Tenders His Resignation

Milwaukee, Jan. 18.—Osian F. Bird, for seventeen years with the Milwaukee road, today placed his resignation as commercial agent of the company in the hands of General Freight agent William H. Dodsworth. In severing his connection with the road with which he has so long been identified he will take a position with a well-known Milwaukee business house, which offers a more advantageous and remunerative position.

HAVE NINETEEN CHILDREN

Parents of Brood Celebrate Twenty-Fifth Wedding Anniversary

Sheboygan, Wis., Jan. 18.—Mr. and Mrs. John L. DeTroye of the town of Wilson, parents of nineteen children, celebrated their twenty-fifth wedding anniversary a few days ago. The parents are 48 and 43 years old, respectively, and were born in Zealand, Holland. Nine years ago they came to this country. Fourteen of their children are boys.

To Dedicate the New Kitchen

The next regular monthly supper and social of the young people of the Congregational church which occurs at the church parlors on Wednesday evening of next week will be the occasion for the dedication of the new kitchen. Besides a more elaborate supper than usual a program, the scheme of which is to remain a secret is being prepared for the evening.

Mr. and Mrs. Frank Reynolds welcomed a bouncing baby boy to the family circle last Saturday. Mother and child are doing well.

ON THE GROWING OF SUGAR BEETS

The Industry is Likely To Be More Profitable Than Tobacco.

TEN TO \$40 AN ACRE

Wisconsin Soil Adapted to Beet Growing, and Many Sugar Factories Needed.

GROWTH OF INDUSTRY

Madison, Wis., Jan. 18.—Dean W. A. Henry of the college of agriculture of the university believes there will be a great increase in the growing of sugar beets in this state during the coming season. "If the right kind of beets are grown and reasonable attention given to their cultivation," Dean Henry says, "they would be more profitable than tobacco and many other crops now grown in Wisconsin."

Experiments, he declares, have proven that many portions of the state, especially those bearing hard maple timber and having a rather light clay soil, are splendidly adapted to the growing of sugar beets. He estimates that under prevailing conditions, allowing about \$30 an acre for the expense of cultivation, beet growers would make a profit of from \$10 to \$40 an acre. Within a short time, he thinks, there will be beet sugar factories scattered all over the state.

Money Spent for Sugar

It is estimated that it will require two dozen factories to supply the sugar consumed in this state alone. At present there is only one such factory, that being at Menomonie Falls, Wisconsin grown beets average as high in sugar producing constituents as any in the country, some of them testing fully 19 per cent. Wisconsin now pays \$20,000 a day for the sugar it consumes, which is perhaps more than it expends for any other staple except meat. If all this money could be kept at home Dean Henry believes the state would be far more prosperous than it is.

Until the beet industry is on a firm footing the dean wants some restriction retained on the importation of sugar from Cuba and to this end today wrote certain members of the Wisconsin congressional delegation to see their efforts to prevent the free importation of sugar from the West Indies.

An Important Matter

Dean Henry has just returned from Kansas, where he went to deliver an address before the state agricultural society. While passing through Nebraska he stopped at the big beet sugar factory a few miles from Fremont. This factory cost nearly \$1,000,000 and produces enormous quantities of sugar. Nearly every farmer in the adjacent territory grows sugar beets and realizes a handsome income from them.

SPARKS FROM THE WIRES

London, Jan. 18.—Sir Ellis Ashmead Bartlett, member of parliament and one of the best known English statesmen, died this morning.

Berlin, Jan. 18.—The imperial yacht Hohenzollern, which is to be present at the launching of the kaiser's new yacht, left Kiel this morning. The passage to the United States will take twenty-three days.

Washington, D. C., Jan. 18.—The Senate Judiciary committee today authorized Mason of Illinois to introduce a bill relieving Postmaster Coyne of Chicago from responsibility of connection with the recent robbery of seventy-four thousand dollars' worth of stamps from his office.

Washington, D. C., January 18.—The senate judiciary committee today decided to report favorably the nomination of Judge Barker of Indiana to circuit judge.

Council Bluffs, Iowa, Jan. 19.—The Women's Christian association of this city this morning sent a communique to Alice Roosevelt asking her to use water instead of wine in the christening of the kaiser's yacht.

London, Jan. 18.—The jury today found Dr. Krause, ex-governor of Johannesburg, guilty of attempted manslaughter and sentenced him to two years' imprisonment. The more serious charge of inciting to murder and high treason failed.

Washington, Jan. 18.—The report of the isthmian canal commission as to the advisability of the purchase by the United States of the Panama canal for forty million dollars will probably be presented to the president today. The majority of the committee favor the acceptance of this offer.

Vienna, Jan. 18.—Political people here state that the first step toward the entire separation of Hungary from Austria will be taken during the present year.

Las Palmas, Grand Canaries, Jan. 18.—A cyclone swept over the Canary islands during the night doing serious damage to property and shipping.

London, Jan. 18.—Hart, the American athlete, who is trying to run two thousand miles in thirty days at the Royal Aquarium today at noon entered the twenty-sixth hour of the contest ahead of his schedule so far.

DIAMOND DISCOVERY MADE IN MONTANA

Find of First Water Gems Causes a Rush of Prospectors to Fergus County.

Lewistown, Mont., Jan. 18.—Diamonds that are said by Tiffany to be of the first water have been found in the northern part of Fergus county, according to a report which reached here today from a reliable source. The news of the find caused great commotion among the prospectors of this region, and tonight dozens of them are on their way to what they believe is a new land of riches.

The discovery was made on Blood Creek, a mountainous country which in its geological nature is said to resemble that about Kimberly, South Africa.

Madison-Janesville Electric Line
Madison, Wis., Jan. 18.—The preliminary survey of the Madison trolley line has been completed and blue prints made of the proposed route. C. C. Smith of Milwaukee, the engineer in charge, has gone over the route, and says that the active survey will take place in about two weeks and last forty days. The route for leaving Madison has not been selected as yet.

NOT RELAX RULES ON SCARLET FEVER

State Board of Health Will Make a Vigorous Fight to Stop the Spread of Smallpox.

Madison, Wis., Jan. 18.—At its annual meeting here yesterday afternoon the state board of health decided to take vigorous steps to suppress the spread of smallpox. It also decided not to modify the quarantine rules for scarlet fever, as desired by Health Officer F. M. Schulz of Milwaukee.

The proposition of Dr. W. P. Roberts of Janesville, regarding a test of the question of the communicability of tuberculosis from animals to human beings was referred to Dr. H. L. Russell, bacteriologist of the state university, with the request that he recommend some practical plan, if possible, for the carrying out of the experiment. The old officers of the board were re-elected.

Dr. Roberts, who proposed the experiment appeared before the board and urged it to do something toward the carrying out of the test. Though none of the members of the board take much stock in it the matter was left to Dr. Russell.

The plan of the board for the suppression is to employ two or more skilled physicians to travel about the state to assist local boards of health in diagnosing cases of suspected smallpox, maintaining strict quarantine, insisting on the vaccination of all persons exposed to the pest and helping in all other possible ways to wipe out the disease.

Dr. Wingate said that smallpox was probably at its height at present and if stringent measures were taken to arrest its spread the number of cases from now on would probably gradually decrease. He thought there were fully five hundred cases in the state at the present time. Unless the most extraordinary precautions were taken, he said, everyone in the state who had not been vaccinated or had not had the disease would get it. Under the most favorable conditions it would take several years to completely wipe out the disease in this state.

Dr. Wingate reported that smallpox exists, or had existed during the past year, in every county in the state except Kenosha and Richland.

APPEAL OF SCHLEY IS NOW READY

Baltimore, Jan. 18.—The appeal from the findings and report of the court of inquiry which Schley proposes to present to President Roosevelt is completed. He contends the appeal cannot be made known until after it has been filed with the president.

The admiral will reach Washington on Sunday night or Monday morning and immediately upon his return Attorney Raynor will go to meet him. The appeal will then be gone over, signed and filed with the president.

MANY FILIPINOS TAKE THE OATH

Washington, D. C., Jan. 18.—The war department is advised this afternoon of the surrender of 365 insurgents to General Wade at Cebu who took the oath of allegiance.

PLAN TO MAKE TRAMPS WORK

Marquette County Board to Employ Ball and Chain Gang

Marquette, Wis., Jan. 18.—The county board has decided to make all the vagabonds who are committed to the county jail work. A deputy will be named at \$2.50 per day to supervise the ball and chain gang and see that they work. No certain labor is specified, but the intention is to put them to work on the county roads or carrying stone for the stone crusher.

NATIVE UPRISING IN EAST INDIES

Odessa, Jan. 18.—Advices from India assert that a native uprising occurred in the district of Ajmere, India. The rebels numbering several thousand defeated the British in three engagements with heavy loss.

A. J. VanAuker of Beloit was in the city yesterday on business.

NO DAWN TEAS AT JUNIOR PROM

Strict Regulations Thrown About the Varsity Social Event.

TICKETS \$6 EACH

Reports of Poker Playing and Other Forms of Gambling Are Prevalent.

YEAR OF REPENTANCE

Madison, Jan. 18.—(Special)—Considerable indignation is manifested among students at the university over the strict regulations thrown about the coming "Junior Prom." by the social committee of the faculty, which has the supervision of these affairs. Among the restrictions imposed by the committee was one that the dance shall close at 2:30 a. m.; that there shall be no "dawn teas," according to the custom in late years of serving refreshments after the dance at the fraternity houses, and that visitors from out of town shall leave for home the day after the dance.

The latter clause of the edict is provoking special comment and ridicule, and petitions are being circulated for the presentation to the committee asking for various ludicrous privileges.

At the present time there is a feeling of indignation at the committee having direct charge of the dance. It was announced that for once the Junior prom. would be a democratic affair, and a little later came the announcement that tickets would cost \$6 per couple. This is taken as meaning that the Prom. is intended for the wealthier students, and from present point of view the success of the Prom. is not promising.

Reports of Poker Playing

Reports that poker-playing and other forms of gambling were prevalent among certain students at the state university has instigated an investigation by the faculty, led by Acting President Birge, and report has it that about 200 of the male students have been summoned to give evidence in the matter and that two young men, both prominent in athletic circles, have been or are to be expelled for gambling. (President Birge is in Milwaukee, and no one can be found who admits knowing just how the matter stands.)

A Year for Repentance

The old saying, "Marry in haste and repent at leisure," is reversed in the case of a Madison couple who have been married for some years, were divorced in haste, and find themselves forced to wait a year for repentance.

M'KINLEY MEMORIAL WEDNESDAY, JAN. 29

Proclamation to the People of Wisconsin Issued by Gov. LaFollette Today—Offerings to the Fund.

Madison, Wis., Jan. 18.—(Special)—A proclamation was issued by Gov. LaFollette today, in line with the plan presented by the McKinley National Memorial association suggesting that Wednesday, Jan. 29, the anniversary of the birthday of William McKinley be observed in the schools of Wisconsin as "McKinley Day," with special memorial exercises, so that on the Sunday preceding Jan. 29 special memorial services be held in the churches throughout the state.

The governor further recommends that in connection with such services and exercises opportunity be given for voluntary offerings to the Memorial fund which those present shall be pleased to make.

All money thus collected may be forwarded to Hon. William R. Day, President of the McKinley National Memorial association, Canton, Ohio, or to W. A. Howell, chairman of the committee for Wisconsin, at Milwaukee.

GEN. HOBART GONE TO SOLDIERS' HOME

Milwaukee, Jan. 18.—General Harrison C. Hobart, famous in civil war history for his remarkable escape by tunneling from Libby prison was taken to the soldiers' home today. He is 55 years of age, and in very feeble health, so feeble in fact that it is almost impossible to look after the honored veteran's wants in a private house. At the home he will receive every attention that skillful physicians and a first-class hospital can give. Probably no veteran of the war is held in higher esteem in Wisconsin than General Hobart.

Washington, D. C., January 18.—The urgent deficiency bill carrying \$16,701,446 was reported to the house today.

Christianity as a Cure
Editor Gazette:—In your weekly
issue of the week Jan. 8, 1902, Thos.
A. Ames brings out an interesting
argument in regard to selfishness, a
Poor Estimate of Worth. His dic-
tum is as far as it goes true, but I
wish to say a few words in regard
to Christianity as a cure and carry it
on a little further than Mr. Ames
does.

Christianity brings forth many
things to our welfare, but even the
pulpit is slow about bespeaking it to
the flock. Allow me to say a few
words and point out what this beau-
tiful word brings forth when rightly
looked into. It first is a good cause
for temperance, unity and lasting sal-
vation.

Temperance has caused many a
happy home untold agony, many
bright men have from its rule and
acceptance lost good positions and
been driven to starvation. Education
does not help a man much in prefer-
ence to a total abstainer. Where a
man is found in the rear of a saloon
drinking and playing cards; no com-
petent business man wants such a per-
son. Temperance is the cause of
many financial failures of today; in-
temperance causes political and la-
bor revolts; not to say such may come
out of temperate men too, but ninety
cases out of a hundred come from in-
temperance.

Many a newly married couple have
applied for divorce on its ac-
count. The use of stimulants becomes
a habit, and that habit grows into a
disease of the nervous system which
deters the nerves so that a man is
not capable of correctly using them,
even to those that he loves, and a
quarrel is the result. Defamation in
the public eye is also a certain point
therefrom. This intemperance is
cured by the close ties of true Chris-
tianity. Next in my consideration
comes love. People love what is
beautiful, but they also love to see
each member to their community in
a Christian habit. This love ripens
out of unity. In the common relig-
ious mind rests nothing that we call
envy. They can among themselves
rely upon each other. This comes
from integrity, so that Christianity is
the foundation of integrity, pure and
simple, out of which ripens trust and
confidence. From integrity, trust,
worthiness, come unity, which ties
the great ties of brotherhood between
man and from the above elements
matures the only thing, a law of Di-
vinity that is so often broken, namely
the seven last commandments of
the table of laws given to Moses on
Mt. Zion many centuries ago which
is called Love for thy neighbor;
Love your neighbor as you want him

She should, by all means, supply
herself with

to love you, and this I say can not
occur unless you take God to help
and observe the true rules of Chris-
tianity. Not long ago this great
country was sat in the dust out of
grief by the atrocious murder of our
beloved president and citizen, Wm.
McKinley. Anarchy sounded on ev-
ery tongue in the country, and so it
was, although ex-Governor John P.
Altgeld of Illinois plainly stated that
it was not in a speech before the stu-
dents of the University of Michigan,
Nov. 17th, 1901. He said, it was from
brooding over things that made
Czolgosz do this heinous crime. I
say it was not, but from an unChris-
tian life led in the anarchist pits led
by the John Most doctrine. If all
anarchists stop to consider that it is
against the rule of moral and Divine
law to comply such life and not jump
before they see a place to jump at
where they can secure a foothold
there would be no such immoral mur-
ders as Lincoln, Garfield or McKin-
ley have been donated with. My ob-
ject to bring this in is to impress up-
on the reader's mind the value of
Christian society. It will prevent
such acts as the above mentioned
from accumulating and not even to
gain an inch of turf to stand upon be-
cause anarchist are nothing but a lot
of individuals, who, by their foul
mind and eccentric habits (find it im-
possible to encounter with honest
and aristocratic society circles) form
a band by themselves and swear ven-
geance upon the hearth of the repub-
lic or monarchy, which ever it may
be, because they are to be found all
over the world. I have been to some
extent out of my former discussion of
what Christianity will bring as fruit
for its followers. Now I say that the
above is a good illustration of what
it will do. I say that when the true
spirit of Christianity is established
among mankind then the horrors of
anarchy can be removed in an eas-
ier way than to enforce its banish-
ment by legislation, because no law
has yet been passed but what an an-
archist will break and suffer death
to penalize his deed. But where a
Christian spirit is worked into a com-
munity the spirit of gloominess and
anarchism have disappeared. And in
conclusion I will say that out of this
grows the salvation of the soul. Noth-
ing more bright can be found on
earth than a salvation and a seat
and place in heaven. Why are we
born to this earth if not to gain for
not give salvation. Only the Lord of
heaven can, and He will give it to all
if we ask Him in tears and on bending
knees say the bible or lead a life to
be considered good by the Saviour.
Many a deterrent will come and go,
but lose not your heart for this lit-
tle thing when award is but a little
way off. Do encourage the spirit of
Christianity among yourselves
and be happy too through it. Have
a good government and its head to be
secure, the whole nation joins in
the act of ridding itself from anar-
chy, and it can be done better by the
supporters of the church than by leg-
islation—not so fast, but when done,
more secure.

Surprise for Con. McDonald
Mr. Con. McDonald was given a
very pleasant surprise last night by
a party of friends who assembled
at his home on East Milwaukee
street, the occasion being Mr. McDon-
ald's forty-fourth birthday. The
evening was spent pleasantly at cards
in a jolly social way. At cards Mrs.
Turnbull was awarded the head prize
and Mrs. M. M. Farley the consol-
ation. Mr. McDonald's friends hav-
ing heard of his favorite plan for
a new home presented him with a
beautiful new one. During the even-
ing a most lavish luncheon was
served to the guests by Mrs. Mc-
Donald.

A Prominent Chicago Woman Speaks
Prof. Roxa Taylor of Chicago, vice-
president Illinois Woman's Alliance,
in speaking of Chamberlain's Cough
Remedy, says: "I suffered with a
severe cold this winter which threat-
ened to run into pneumonia. I tried
different remedies, but I seemed to
grow worse and the medicine upset
my stomach. A friend advised me
to try Chamberlain's Cough Remedy
and I found it was pleasant to take
and relieved me at once. I am now
entirely recovered, saved a doctor's
bill, time and suffering, and I will
never be without this splendid medi-
cine again." For sale by People's

Installation of Officers
Installation of officers was held last
evening by the K. O. T. M. and the
L. O. T. M. at East Side Odd Fel-
lows hall. State Commander Brown
was present and conducted the instal-
lation exercises. After the installa-
tion was finished a splendid literary
and musical program was rendered.
The program was followed by the L.
O. T. M. drill team of twenty ladies
led by Mesdames Elmer and Pardee,
who appeared on the floor and gave
an interesting drill. Baldwin and
Rehfeld's orchestra furnished the mu-
sic for the dance that followed the
drill and formed a pleasing finish
to the evening's exercises.

Epworth League Sock Social
The parlors of the First M. E.
church were the scene of a happy so-
cial gathering last evening called a
sock social given under the auspices
of the Epworth League. The name
of the affair is derived from the man-
ner of fixing and paying the admission
fee of each individual. Each invita-
tion was accompanied by a small
sock with the announcement that as
many pennies must be placed in it as
a large number of young people were
the number of the size of the shoe
worn.
present and a lavish supper was en-
joyed during the evening.

F. D. Kimball. Mr. Hatch is a broth-
er of Mrs. Kimball.

THOUSAND DOLLAR
BILLS ARE SCARCE

Thousand dollar bills are a scarce
thing in Janesville. Once in a while
one of them makes its appearance at
one of the banks and is used prin-
cipally to pay balances when the
clearings are made.

There has not been more than one
in circulation in this city during the
last six months and that one was finally
packed up with other currency
and shipped back to Chicago. There
is very little demand for bills of this
denomination in this city although
fifty and hundred dollar bills are
used.

A gentleman in Edgerton who came
from the east a short time since
showed eighteen of the one thousand
dollar bills to a group of admiring
friends. People coming from the
east sometimes adopt this way of
carrying their money as a large
amount can be put in a small space.

As a general proposition one thou-
sand dollar bills are not much sought
after in small towns. There is no
demand for the bill among the banks
customers, and the only thing they
are good for is to use them as a me-
dium of exchange in paying balances.

In large cities where payments of
large amounts of money are made
and large deals requiring cash pay-
ment are consummated, one thousand
dollar bills are a fine thing. They
are also very handy in any game of
chance where a man wants to make
a big bluff or call one. It is not
done very often in this city although
there are plenty of men here who
have heard tell of it being done.

But as a rule as soon as a one thou-
sand dollar bill strikes this city the
bank get hold of it and send it back
to the big banks as soon as possible.

Benefit for the Ushers
"A Wise Guy," a farce that made
a pronounced success last season
and was considered one of the fun-
niest shows of the year, will be the
attraction at the Myers Grand, next
Monday night. The management
claim "A Wise Guy" has been some-
what changed, or rewritten, and is
new turned right up to date. Edmond
Hayes till plays the husky piano
player and the cast includes: Adele
Palmer, The Harmony Four; John Mc-
Veigh; Katherine Hayes; Three Syl-
vester Sisters, Gertrude Homes; Edna
Farrell, Margaret Robinson, Dennis

ENFORCE RATE RULES

Wisconsin Cheese Makers Appeal to
the Inter-State Commerce Com-
mission for Relief.

A striking instance showing the
necessity of making effective the ru-
lings of the inter-state commission
when existing rates are found, upon
a full hearing of all parties in inter-
est, to be unreasonable or unjust,
arose in a case brought before the
state railroad commission of Wis-
consin about two years ago by the
Wisconsin Cheesemakers' associa-
tion, composed of more than 17,000
cheese manufacturers of the state.

It represented a large interest, the
production of the cheese in the state
of Wisconsin being about one-fourth
of the entire output of the United
States. It was demonstrated that the
rates of freight on cheese from points
in Wisconsin to Chicago were actu-
ally one-third greater than from points
in the dairy region in the state of
New York, the distance from the lat-
ter being nearly three times as great
as from the former.

The cheese makers of Wisconsin
were thus compelled to compete in
their natural home product with the
product of a distant Eastern state,
at a serious disadvantage in freight;
and not only were "cons brought to
New Castle," but an embargo was
placed upon shipments from the nat-
ural source of supply. To give the
exact figures, the rates from points
in Wisconsin, 210 to 220 miles dis-
tant from Chicago were forty cents
per hundred pounds, and those from
points in New York, 550 to 580 miles
distant from Chicago, thirty cents per
hundred pounds.

Although the case related to inter-
state traffic, the Wisconsin railroad
commissioner was desirous of secur-
ing much relief as he might be able to
by his influence. He held several con-
ferences with the railroad officials on
the subject and received encourage-
ment to hope for a satisfactory ad-
justment of rates; but after months
of delay he was notified that no
change would be made.

Presumably the railway officials at-
tempted to secure "adjustment" by
procuring an advance in the rates
from New York, in which they were
unsuccessful. The Cheesemakers' as-
sociation was advised to make
complaint to the Interstate Com-
merce commission, but in view of the
limitations set upon the authority of
the commission by the decision of the
supreme court, the association was
discouraged from undertaking any
further proceedings, and the injust-
ice has continued to exist to the pres-
ent time.

The Polo team leaves tonight for
Racine where they will play the Hor-
licks at the Lakeside rink. The boys
have been putting in considerable time
of late in practicing and should be
able to give the Horlicks a good
game. A number of enthusiasts ac-
companied the team.

NEWS AND GOSSIP
FROM LINE CITY

Beloit, Wis., Jan. 18.—Coach Hol-
lister has arranged Beloit's base ball
schedule or will present it to the fac-
ulty for approval at once. Hollister
and Kilpatrick have a love feast up
at Madison Thursday and as a result
five games will be played the coming
season between Beloit at Wisconsin.
The Decoration Day game will be
played at Janesville in the past.

Illinois has not been heard from
but in all probability at least one
game will be arranged. Chicago
could not be induced to play in this
city.

Coach Hollister is in hopes the
faculty will look with favor on the
proposed trip east. On April 25th, a game
has been arranged with Albion and
on the 26th Michigan is met at Ann
Arbor. A jump is then taken to Ohio
to play at Oberlin on the 8th, and
Syracuse will be played at Syracuse
on the 30th. Another game can be
arranged to fill out the time in the
east before returning to play North-
western at Evanston on May 3.

The promoters of the long distance
independent telephone project are
hard at work and find the citizens of
Beloit quite responsive. The plan is
to strengthen the Badger State
Long Distance company by the in-
crease of its capital stock and to en-
large its field by the extension of its
lines. It is argued that the value of
the stock in the local independent
companies will be enhanced by the
formation of a strong long distance
company which can compete with the
Bell company. An appeal is also
made to citizens to support the local
company in preference to the Bell
company as a matter of municipal pol-
icy. The profits of one company go
to home people, and of the other to
outsiders. It is also stated that the
local company is in good shape finan-
cially; that its business is growing
steadily, but has not the support of
some whom the company would nat-
urally expect to patronize it.

The costliest building of modern
times is the state capital at Albany,
N. Y. It cost \$20,000,000. Dr. Crane's
Quaker Tonic Tablets cost fifty cents
and are the perfection of purity in
medicine. They cure kidney diseases,
torpid liver, constipation and in-
digestion. In all the word no cure
so sure.

We, the undersigned, do hereby
agree to refund the money on a 50

Lecture by Rev. Mr. Hopkins
The lecture of the Rev. Frederick
E. Hopkins who appeared on the
third number of the Peoples' Lecture
course was given to an audience
which filled the Congregational church
last evening. Dr. Hopkins' subject
for the evening was "The Golden
Fleece" and he handled it in a man-
ner that interested and delighted his
audience from the beginning to the
end and won from his hearers the
verdict of being one of the best plat-
form talkers that has been in the
city. The moral of his lecture was
to get yourself in that mental attitude
toward things so that you would rec-
ognize the good and the beautiful
in that which lies close at hand and
not be lured to your destruction by
the green hills in the distance.

Nothing
Tastes Good

And eating is simply perfunctory—
done because it must be.

This is the common complaint of
the dyspeptic.

If eating sparingly would cure dys-
pepsia, few would suffer from it long.

The only way to cure dyspepsia,
which is difficult digestion, is to give
vigor and tone to the stomach and the
whole digestive system.

Hood's Sarsaparilla cured the niece of
Frank Fay, 108 N. St., South Boston, Mass.,
who writes that she had been a great sufferer
from dyspepsia for six years; had been without
appetite and had been troubled with some
stomach and headache. She had tried many
other medicines in vain. Two bottles of
Hood's Sarsaparilla made her well.

REWARD OF MERIT.

A New Catarrh Cure Secures National Popularity in Less Than One Year.

Throughout a great nation of eighty millions it is a desperate struggle to secure even a recognition for a new article to say nothing of achieving popular favor, and yet within one

year Stuart's Catarrh Tablets, the new catarrh cure, has met with such success that today it can be found in every drug store throughout the United States and Canada.

To be sure a large amount of advertising was necessary in the first instance to bring the remedy to the attention of the public, but every one familiar with the subject knows that advertising alone never made any article permanently successful. It must have in addition absolute, undeniable merit, and this the new catarrh cure certainly possesses in a marked degree.

Physicians who formerly depended upon inhalers, sprays, and local washes or ointments, now use Stuart's Catarrh Tablets, because, as one of the most prominent stated, these tablets contain in pleasant, convenient form all the really efficient catarrh remedies, such as red gum, blood root and similar antiseptics. They contain no cocaine nor opiate, and are given to little children with entire safety and benefit.

Dr. J. J. Reilger, of Covington, Ky., says: "I suffered from catarrh in my head and throat every fall, with stoppage of the nose and irritation in the throat affecting my voice and often extending to the stomach, causing catarrh of the stomach. I bought a fifty cent package of Stuart's Catarrh Tablets at my druggist, carried them in my pocket and used them faithfully, and the way in which they cleared my head and throat was certainly remarkable. I had no catarrh last winter and spring and consider myself entirely free from any catarrhal trouble."

Mrs. Jerome Ellison, of Wheeling, W. Va., writes: "I suffered from catarrh nearly my whole life and last winter my two children also suffered from catarrhal colds and sore throat so much that they were out of school a large portion of the winter. My brother, who was cured of catarrhal deafness by using Stuart's Catarrh Tablets, urged me to try them so much that I did so and am truly thankful for what they have done for myself and children. I always keep a box of the tablets in the house and at the first appearance of a cold or sore throat we nip it in the bud and catarrh is no longer a household affliction with us."

Full sized packages of Stuart's Catarrh Tablets are sold for fifty cents at all druggists.

Send for book on cause and cure of catarrh mailed free. Address F. A. Stuart Co., Marshall, Mich.

Admits a Brutal Murder.

Houghton, Mich., Jan. 18.—Charles Johnson, held in the county jail here since Sunday upon suspicion, broke down last night and made a complete confession of the murder of Mat Smette on the night of Jan. 7 on Quincy hill. He said he waylaid his victim, shot him twice through the head and after rifling the body had thrown it down the railroad embankment. After murdering his victim in cold blood he searched his pockets for money in vain, but stopped, as he says, to feel his victim's pulse, when he discovered tightly clenched in his right hand a purse containing \$30.09.

MISUNDERSTOOD.

"No, I will never go home again as long as I live."

Two well dressed boys stood on the corner, in earnest conversation. They were not smoking or swearing, and there was nothing about their appearance to indicate that they were sports, or in any way connected with the fast set of the town.

The statement quoted caught the ear of a mutual friend who was passing, and he stopped to join in the conversation.

"What's that you say, Tom? That you won't go home again as long as you live? Why, what's the trouble, where will you go?"

"Yes; that's just what I said and I mean every word of it. Trouble, there's trouble enough to drive a boy to drink. My father is a holy terror. I don't understand him and he don't understand me. He accuses me of everything that is mean and now he thinks I'm dishonest."

"But what about your mother; she's all right."

"Yes; I have the best mother in the world and she understands me, but I can't stand the pressure any longer and I won't."

And so the boy went out from the home, with heart full of bitterness, because his father had forgotten that he was ever a boy. He failed to appreciate the boy's ambitions and had no sympathy with his impractical schemes, lacked patience and wisdom to lend a guiding hand, never took him into his confidence and close companionship, but permitted his life to drift away from him; until the boy felt the estrangement and would no longer endure the association.

You say the picture is unreal, because untrue to life, that no father so far forgets himself as to be unkindful of the best interests of his boy, and yet the fact remains that the boy is frequently misunderstood and criticized; that if he would be good like the neighbor's boy across the street, there would be some satisfaction in trying to do something for him. To the man, past middle life, with boyhood experiences fresh in mind, it is very natural compare the hardships and discipline of former years, with the advantages and comparative ease of the life of today. He likes to say to his son:

"If I had been possessed of your disposition when I was a boy, I would have been thrashed within an inch of my life." The comparisons are so frequent and so odious, that the boy sometimes wonders how his father ever lived to tell the tale.

The boy of today may be totally unlike the boy of forty years ago. He ought to be different in some ways, because the conditions of life have been largely revolutionized, and with the rapid progress of the age, ambitions have been quickened, the mental horizon so much enlarged, that his scope of vision takes in at a glance, a vista of which his father never dreamed.

The improvements of the age that follow each other with startling rapidity, are new to him, and with their unfolding he simply discovers another avenue of possibility. Talk to him about air ships and wireless telegraphy, and if he expresses an opinion, it never contains anything in the way of surprise or incredulity. He expects miracles in the field of science and discovery, because he lives in an atmosphere of evolution.

If an air ship was attached to a plow, he would be more interested in watching the man turn a straight furrow, than in the motive power. If a wireless message should arrest his attention, he would criticize the method, more than he would marvel at the discovery.

No, the boy of the new century is not the same boy of forty years ago. He resembles him in general appearance, possesses many natural endowments, that are similar, but he is the product of a new creation, and he intensely a part of it that to thoroughly understand him, he must be considered in the bright light of the present generation.

Did you ever study the American boy in the abstract, and have you ever tried to father his mind, so full of schemes and plans that he needed an assistant to keep them in order? Have you ever thought that this boy, so full of life and hope, and so careless withal, will be the man of tomorrow, and that either by chance or through force of circumstances, he will be attempting to do one thing well?

Has it ever occurred to you that the success or failure that may result, depends very largely upon the wisdom of the choice, and that the boy will never find a time in all the experiences of life when he needs to be thoroughly understood so much as he does today?

There are hundreds of boys in Janesville, between the ages of fifteen and twenty, and a vast army of them scattered over the country, who

are looking out into the near future, so full of golden opportunities, for young men, and wondering, which one of the many inviting channels they shall invest their energy in.

If they had lived forty years ago, on the farm, the choice would be easy. Simply follow the plow and maintain the father's reputation of a good farmer. If in town, take up some trade or calling, and be satisfied with ordinary success.

Perhaps the old days were the best, but the boy has no choice, he is an active part of the present, and with him history is ancient before it becomes musty.

What the boy needs is to be understood, both in the home and school. Understood in the light of inspiration that comes to him through active brain and healthy body, prompted to service by a warm impulsive heart, that responds as naturally to the touch of sympathy and kindly interest, as the violet responds to the morning sunlight.

Take any boy into your confidence and talk to him seriously about his plans and see how quick he will unfold them. They may be visionary and impractical, and a word of suggestion may straighten him out and put him on the right track and save him from defeat.

There would be more harmony in life if there was less misunderstanding, not only in the home, but in the church and society and in all the avenues where people touch elbows, and have a common interest.

It is gratifying to know that the weaknesses of humanity are understood by an All wise Father, Whose judgment is never controlled by circumstances.

An effort is being made to develop another Sandow from among the athletes of America in a physical culture contest open to all amateurs now going on under the auspices of the Police Gazette for a diamond championship medal and three other prizes in gold. The judges are Jim Corbett, "Parson" Davies, and Sam C. Austin. Already entries have been received from two hundred athletes in all parts of the country, and the contest promises to be a notable one. Physical development, under intelligent training, is receiving more attention today than ever before. It is possible for every boy and girl in normal condition to become an athlete. A strong body is helpful to the mind.

Those words were uttered by John M. Whitehead in his speech at Madison and they mean a great deal. In the first place they mean that the present high rate of taxes is not an indication that the present administration is in the reform business enough to now it. In the second place, it means that if you were to raise the special license tax of corporations to the sky, it would not reduce the amount the farmers and business men have to pay so long as the present method of raising taxes for schools, universities, etc., is kept in operation. Make special appropriations and do away with the pro rata and reform and lower taxes would follow of themselves.—Whitewater Register.

PRESS COMMENT.

Fond du Lac Commonwealth: Republicans of Wisconsin have found Senator Whitehead a safe leader at all times, and they will be especially pleased with his attitude on the problem of taxation.

Marquette Eagle: The La Follette papers finding nothing bad to say about Senator Whitehead, are trying now to show that he is too good, a man to please the Wisconsin voters. Perhaps they would prefer a wine bibber in the executive mansion, but the people prefer a sober man.

Stevens Point Journal: Petitions asking Senator Whitehead of Janesville to become a candidate for the republican nomination for governor are being circulated throughout the state. The work of circulating the petitions was commenced on Monday and already they have been signed by thousands of voters in all parts of the state. In this city the work was commenced Tuesday, and among those who have already appended their signatures are those who were among Mr. La Follette's most active supporters, when he was making his campaign against Governor Scofield in 1898.

Evening Wisconsin: The reappointment of E. D. Coe, as pension agent for the Milwaukee district causes no surprise, because it was generally expected. Mr. Coe has been an industrious and painstaking official, and duty well performed should always be accepted as the highest recommendation.

Oshkosh Northwestern: The Appleton Post discourses in a learned manner on the subject of "Hell." Of course, as viewed from an editorial standpoint, it goes without saying that the argument advanced is that there is no such place in the hereafter.

The Milwaukee Free Press thinks that John M. Whitehead of Janesville would be a weak candidate for governor, because the race track gamblers would oppose him, and Die Germania thinks the Germans would oppose him on account of his temperance views. By all means let's have Whitehead. A man with a better, cleaner record cannot be found in the state.

Harvard Independent: Senator John M. Whitehead of Janesville has been decided upon as the stalwart republican candidate for governor of Wisconsin. La Follette has no chance for re-election.

FOR GOVERNOR.

A boom for Senator John M. Whitehead as candidate for governor is filling the state. His speech at Madison on the subject of taxation, to which we made reference last week, was so eminently fair, conservative and comprehensible that it has called the attention of the state anew to Senator Whitehead's great abilities and marked fitness for high official position. It is a pleasure even to think of the gubernatorial chair being occupied by a man of his character; it recalls the best traditions of the party and brings to mind the days when the chief executive of the state cared only to administer the office in the interests of the people, who was accessible to the humblest citizen, who had no policy to enforce against the will of the public, and whose promises once given were held by him as sacred as holy writ. Senator Whitehead is not seeking the office, and it is by no means certain that he will allow the use of his name as candidate for the governorship; but if the convention were to be held next month, it looks now as if the mandate of the party would be laid upon him so emphatically that he could not, as a good republican, refuse to obey.—Whitewater Register.

THE RIGHT MAN.

Men of the proportions of John M. Whitehead are needed in the public service. They do the highest honor to their fellow citizens, for these are the men, not time servers, and neither are they seeking political preferment for salary considerations or mere personal gratifications. They are men who realize the best to be had is only to be had through an adjustment of the opinions of others and that the American republic was founded upon tolerance and not intolerance. Whether in congress, the legislature, or as governor, John M. Whitehead is and will be an honor to the people of his state. He is a leader of men and he is a thorough American in standing for a genuine liberty and a genuine toleration of the rights and opinions of others.—Racine Journal.

TWO CARLOADS OF FINE CATTLE

H. C. TAYLOR MAKES A VALUABLE SHIPMENT EAST.

Animals Were All Selected from the Best Herds—The Fate of a Valuable Bull, Which Overloaded Its Stomach on Eating Frost-Bitten Blue Grass.

On Saturday of last week Mr. H. C. Taylor, the well-known stockman of Orfordville made a shipment of two car loads of as valuable cattle as probably were ever collected for shipment in this county. The shipment consisted of 33 Jersey cows and 7 Berkshire hogs and were consigned to the estate of W. S. Ladd, a wealthy banking and stock concern of Portland, Oregon, for whom they had been collected by Mr. Taylor at great cost and labor. The work of collecting the animals has occupied Mr. Taylor for over two months and has compelled him to travel over a large area of territory.

Another carload was secured by Mr. Taylor at the C. I. Hood farm at Lowell, Massachusetts and were shipped direct from that place to Portland. Of the cattle shipped from this city six head were secured at Lexington, Ky. ten head in Indiana and the balance were selected from the best herds of Jersey cattle located at various places throughout the county. Earlier in the season the Ladd estate desired to secure a bull for their herd and Mr. Ladd and his head herdsman spent a month with Mr. Taylor looking for just the kind of an animal they desired.

After searching the country pretty thoroughly they left the matter with Mr. Taylor who continued the search alone with instructions to purchase a desirable animal without regard to price as they desired the best bull for their combination herd to be had in America.

Mr. Taylor, after making the circuit of the state fairs of the various states and visiting the best known herds and importations in the country finally found the animal he considered the best suited for the requirements of his patrons at Lexington, Ky., at about Thanksgiving time. It was named Gullusius—Imported.

After purchasing the animal and making all arrangements for shipment he left for his home at Orfordville and on the following day received a telegram that the animal was dead. It had been turned out on blue grass to graze and had overloaded its stomach with frosted grass. This bull brought the highest price of any Jersey animal that had been sold in America in 18 years and his death was a severe loss to the Jersey interests.

Mr. Taylor made the purchase of an animal to replace the Kentucky bull at Davenport, Ia., called "Combination Golden Lad" which he believes is fully as fine an animal as the one that died. The value of the entire shipment of the three cars is placed at many thousand dollars.

WANT BIDS FOR NEW POSTOFFICE

Drawings and Specifications for Building Are in Hands of Postmaster Nowlan.

The sealed proposals for the erection of the Janesville postoffice will be received at the office of the Supervising Architect, James Knox Taylor at Washington, until 2 p. m. February 18, 1902.

Postmaster O. F. Nowlan today received notice of this fact as well as several copies of the drawings and specifications of the building. The bids for the erection of the new building will include everything except heating apparatus, electrical wiring and conduits.

This is the first real move toward the erection of the building. The lot is practically all ready for the contractor to begin work. The buildings have all been removed, so that as soon as the contract is let there will be nothing in the way of the successful bidder going on with the work.

The specifications may be had at Postmaster Nowlan's office or can be secured from the supervising architect at Washington.

LOCAL DENTISTS WORRIED

The New York Dental Company Throw a Bomb into the Ranks of The Janesville Association.

High prices for good dental work in Janesville will soon be a thing of the past. This fact was clearly demonstrated this morning when Dr. G. E. Krueger of Chicago signed a lease for a suite of offices on the second floor of the New Jackson building. Next Monday morning the New York Dental parlors will open in these offices the most modern dental institution in southern Wisconsin.

The business here will be in charge of Dr. D. C. Whitcomb, a graduate of Northwestern University of the class of 1896. Only competent workmen will be employed. The New York Dental Parlors company come to this city with the very best recommendations.

In Appleton, Chicago, New York City and other places they have dental offices that are doing excellent business. The secret of their success lies in their low prices. The best work possible at one half the prices of the whole secret of the success of this hustling firm. In cities like Janesville where a dental association exists is where the New York Dental parlors do the business.

The coming of this firm to the Bower City will fill a long felt want and will for once place before the public only first-class work at prices that are within the reach of the poor as well as the rich. To a Gazette man this morning Dr. Krueger said: "We will guarantee the best possible work. We are not here today and away tomorrow. Our excellent work and our cut rate prices are what will bring us the business. We don't believe in dental associations of any description. Our patrons are our best advertisers."

Lieutenant Alfred Clifton and Examining Surgeon Thomas W. Raymond of the U. S. Signal corps were in the city yesterday looking for recruits for the service. They examined about twenty applicants at the Hotel Myers yesterday but only found three that passed the physical examination. They will return to this city in a few days and make a further examination of candidates.

Next Friday evening is the anniversary of Scotland's favorite poet, Robert Burns, and as is the custom the Caledonian society have prepared a most attractive program. Some of their talent has been secured in New York and some in Milwaukee and it is all strictly first-class. With the present favorable weather a bumper house is assured.

Harlan A. Fitch has been appointed manager of the Postal Telegraph Co's local office and has already assumed charge. Mr. Fitch was in the U. S. government signal service as operator in the Philippines and returned to Janesville last September. W. H. Rich, who has been in charge is transferred to Chicago with the same company.

YESTERDAY WAS A RUNAWAY DAY

Three Different Exploits of Horses Between Noon and 8 O'clock in the Evening.

Yesterday was runaway day in the city there being three runaways between twelve o'clock noon and eight o'clock in the evening.

About noon the horses hitched to Babcock's oil wagon ran away and finally brought up at his home up near the stand pipe without doing any damage or spilling oil.

About four o'clock in the afternoon a pair of horses hitched to a lumber wagon became frightened at the street cars on West Milwaukee street and when the farmer turned up Jackson street they started on a run.

He stuck to them until they turned off from Jackson street onto Madison avenue near Dr. Loomis' residence. Here they caught the wagon in the car tracks breaking an axle and getting loose from the wagon.

The farmer was thrown out but was not much hurt. The team was stopped a short distance up the road. Paul Young a German residing at Walker's Corners, about half way between Milton and Johnstown came to town last night after some medicine for a daughter that was sick with pneumonia. He secured the medicine and started home on Milwaukee avenue.

He was driving a horse hitched to a top buggy and while going out had a slight collision with some parties going the other way.

His horse started on a run and when near Dr. Whiting's residence collided with a telephone pole. The shock smashed the buggy and threw Young out on his head breaking his nose and otherwise injuring him. He was insensible when picked up and taken into Dr. Whiting's residence. The doctor straightened up his nose and fixed him up so he could get over to the station and take a train to Milton where he was carried home. The horse was going towards home the last seen of it.

TOBACCO BUYERS

DOING SOME RIDING

Tobacco buyers have been doing some riding during the week, though no great amount of headway has been accomplished in the way of sales.

The result of a continual importuning of growers to accept a lower price is evident from the figures presented in the sales that have come to notice.

If farmers are willing to accept the average of prices quoted today it is quite likely a more general movement would ensue.

Old leaf is moving in a moderate way, for which there continues an excellent demand. Barnard & Wilder purchased 5000s from Stoughton dealers of late for the account of Rossin & Co. S. B. Heddes picked up 2200s of low grade goods of local packers and P. S. Baines sold 1100s to export, comprises the transactions that have come to notice.

Deliveries of the new crop are being made at a few of the packing points where warehouse handling has commenced. Many of the growers now have their stripping about completed and in some instances are preparing to sort and pack their crops.

Why can't we come over to your house and play any more?

Because papa gets so mad when we make a little bit of noise.

What makes him that way?

Mamma says it's dyspepsia makes him act so crazy.

That's about the way it strikes the small boy. The dyspeptic has no idea of his own unreasonable or harshness. Little things are magnified and seem to justify his quick anger.

There's health for the dyspeptic and happiness for the family by the use of Dr. Pierce's Golden Medical Discovery.

It cures diseases of the stomach and other organs of digestion and nutrition, and restores perfect health and strength, by enabling the perfect digestion and assimilation of food.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yankin College, Davidson Co., N. C. "I have had no bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without full distress, but now I can eat anything I wish without having unpleasant feelings."

Dr. Pierce's Pleasant Pellets cleanse and regulate the bowels.

Why can't we come over to your house and play any more?

Because papa gets so mad when we make a little bit of noise.

What makes him that way?

Mamma says it's dyspepsia makes him act so crazy.

That's about the way it strikes the small boy. The dyspeptic has no idea of his own unreasonable or harshness. Little things are magnified and seem to justify his quick anger.

There's health for the dyspeptic and happiness for the family by the use of Dr. Pierce's Golden Medical Discovery.

It cures diseases of the stomach and other organs of digestion and nutrition, and restores perfect health and strength, by enabling the perfect digestion and assimilation of food.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yankin College, Davidson Co., N. C. "I have had no bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without full distress, but now I can eat anything I wish without having unpleasant feelings."

Kodol

Digests what you Eat

Dyspepsia Cure

When the stomach is diseased all the other organs suffer, hence fatal diseases of the heart, liver, lungs and kidneys are often the result of improper digestion. Kodol Dyspepsia Cure contains all the natural digestive fluids and by digesting what you eat, it cures the indigestion without aid from the stomach, allowing it to rest and regain its healthy condition and permitting you to eat all the good food you want.

"My rest is often disturbed at night by irregular heart action which I believe is on account of my stomach being overloaded with undigested food. I keep a bottle of Kodol Dyspepsia Cure nearby and a small dose always gives me instant relief. Ed. Thomas, Leitchfield, Ky."

It can't help but do you good

Prepared by E. O. DeWitt & Co., Chicago. The \$1.00 bottle contains 2½ times the 50c. size.

The favorite household remedy for coughs, colds, croup, bronchitis, grippe, throat and lung troubles is **ONE MINUTE Cough Cure**. It cures quickly.

Start Girls Right!

Many beautiful girls become invalids for life, because at the crucial period of puberty they pay no attention to the laws of health. Mothers should protect their daughters' health by giving them necessary information and proper treatment.

When the menses come on a girl unawares in her inexperience she is either frightened into convulsions, or scared into trying to check the flow. Many girls have checked the flow and it has never started again. And as a result they have grown pale-faced, with "crow's-feet" on their cheeks, and dark hollows under their eyes. A dose of

WINE OF CARDUI

taken every morning after a girl is twelve years old will bring the menses on properly and keep them regular. It will help her to develop into attractive womanhood and equip her for the duties of wife and motherhood.

All druggists sell \$1.00 bottles of Wine of Cardui.

I read your advertisement in regard to Wine of Cardui in the Baltimore American, and it so favorably impressed me that on my visit to Baltimore during the holidays I purchased a bottle of it for my adopted daughter, who was suffering with female troubles. She had been under the doctor's care for some time, and when her periods would come on her suffering was something terrible. I induced her to try it and the first dose brought on her menses. She took it regularly according to the directions, and was greatly relieved. To use her own words, "It saved my life." J. WESLEY CROSS.

Read What a Janesville Citize Says.

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Janesville is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following:

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says: "My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longed for and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the aching and the distress in the small of her back disappeared."

SEISMIC SHOCK KILLS 300 PEOPLE

Ancient Town of Chilpancingo, Mexico, Is Shaken by an Earthquake.

A HEAVY LIST OF INJURED.

Other Villages in the State of Guerrero Badly Damaged—Details of the Disaster Are Meager—Worshippers Killed in a Church.

City of Mexico, Jan. 18.—One of the most terrible catastrophes in the history of the state of Guerrero is reported to have occurred late in the afternoon, when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details from the stricken district are very meager, but scattering reports received here indicate that probably 300 persons were killed and as many more injured. It is known that the state capitol, the parish church and many business houses and residences are in ruins, and there is much suffering as a result of the awful seismic disturbance. One of the edifices that suffered most was the federal telegraph office, which explains the paucity of news that has so far reached this city.

Telegraph Lines Damaged.

Meager details finally began to arrive here. The telegraph lines and apparatus at Chilpancingo were badly damaged, but the employees, all of whom were uninjured, quickly proceeded to erect an improvised telegraph office on the outskirts of the city. The number of deaths was greater in the parish church than in any single place, as a crowd of worshippers was gathered there for the afternoon service. The solid masonry wall and roof came toppling down on the worshippers, and several people were killed. The war department has ordered troops in the neighborhood to co-operate in the work of rescue. Until this work is completed it would be impossible to accurately learn the number of victims. It is believed, however, that this is one of the most destructive seismic phenomena that has occurred in Mexico.

Survivors in Tents.

The greater part of the population of Chilpancingo are now camping out under tents around the town, which is five days' journey from the national capital. Earthquake shocks were felt in many other cities and towns. In this city the earthquake occurred at 5:17 o'clock Friday afternoon, and was of such violence as to shake the most substantial buildings. The pan-American congress was in session at the time and many of the delegates were greatly alarmed. The first movement here was one of trepidation and was very sharp. It was followed by an easy oscillatory movement north-northeast to south-southwest. The duration was fifty-five seconds. The damage in this city was only slight. The state of Guerrero has always been the focus of seismic disturbances. Reports received here at night state that the shock was very severe at Chilpancingo. No casualties are so far reported from there. The duration of the Chilpancingo shock was less than that in the City of Mexico, having lasted fifty seconds, against fifty-five seconds at the capital.

Town of Historic Interest.

Chilpancingo is a town in the state of Guerrero and located at the base of the Sierra Madre del Sur mountains. It has a population of 2,750. It has a peculiar historical interest from the fact that it was selected as the meeting place of the first congress of the Mexican republic, after the long and bloody campaigns with the Spaniards. Morelos and his followers met at Chilpancingo in September, 1813. The first act was the appointment of Morelos as generalissimo, already sanctioned by the army, the office including in its functions the executive power and remaining in the hands of its possessor as long as he displayed fitness for his duties. The judicial authority was vested for the moment in existing tribunals, at the head of which was congress itself, but subsequently judges of the supreme court were elected. November following, leading revolutionists joined Morelos at Chilpancingo and the congress opened for regular business. Its first measure was the famous declaration of independence, issued Nov. 6, wherein Mexico was forever declared free of Spanish control, with liberty to work out its own destinies. In consonance with this proclamation of independence the decrees of Morelos, already issued, were confirmed. Morelos was afterward captured, tried by the Spanish authorities, turned over to the church and by its orders put to death.

MRS. J. E. O'DONNELL,

President Oakland Woman's Riding Club, Chicago, Sends an Unsolicited Letter to Mrs. Pinkham, and Wants It Published.

Sick Eight Years with Female Trouble and Finally Cured by Lydia E. Pinkham's Vegetable Compound.

The already enviable record of Mrs. Pinkham's great medicine becomes more and more glorious every day, and how the glad tidings are spread among women from the Atlantic to the Pacific is told in such letters as the one from Mrs. O'Donnell here published.

The troubles to which women are subject because of their sex are many—every day a woman is liable to a new pain. Excessive worry may disturb the menstrual functions and unsettle the nerves. Over-excitement may set up inflammation of the ovaries and womb, but wherever or whatever the trouble is Lydia E. Pinkham's Vegetable Compound is sure to find and cure it. Read Mrs. O'Donnell's letter and try to realize that such generous testimony is not to be had for money, or any monetary consideration; it is purely out of the goodness of her heart and gratitude for her own cure that by this act she is endeavoring to lead other women to health and happiness.

Mrs. Pinkham invites all women who are ill to write her for advice. Address Lynn, Mass., giving full particulars.

MRS. JENNIE E. O'DONNELL

"DEAR MRS. PINKHAM:—I have never in my life given what you would call a testimonial before, but you have done so much for me that I feel called upon to give you this unsolicited acknowledgment of the wonderful curative value of Lydia E. Pinkham's Vegetable Compound. For eight long years I had female trouble, falling of the womb and other complications. During that time I was more or less of an invalid and not much good for anything. Four years ago I noticed a book in the hall telling of the cures you could perform. I read it and became interested. I bought a bottle of Lydia E. Pinkham's Vegetable Compound and was helped, and decided to use it for a year, but seven months sufficed to cure me, and since that time I have simply had perfect health. Thanks, dear Mrs. Pinkham again, health such as I now enjoy is worth all that and more."—MRS. JENNIE O'DONNELL, 278 East 31st St., Chicago, Ill.

Surely such endorsement should dispel doubt from the minds of all hesitating women. After reading such a letter, if any woman is willing to remain sick, we can only say it is her own fault and she deserves to suffer; for the medicine that cured Mrs. O'Donnell and a hundred thousand others will surely cure her.

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letter is not genuine, or was published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

STONE CAPTORS IDENTIFIED.

Correspondent Says They Are Not Brigands but Political Agitators.
 London, Jan. 18.—The Daily Graphic lately sent W. F. Maudslayi, an artist and correspondent, to search for Miss Stone, the American missionary, in the hope, as the paper said, "of casting light on the causes of the incident and the best means to secure Miss Stone's release." Maudslayi's second article, dated Dec. 23, is published to-day, asserts positively that Miss Stone is the victim of the Macedonian committee, and that it was political capital and not money that induced her kidnapping.

Killed by Poisonous Mail.

Hallstead, Pa., Jan. 18.—Postmaster Richard Barber of this place is dead as a result of handling mail that contained the germs of smallpox. This is the opinion of physicians here. There has been no smallpox here, aside from this case, and Postmaster Barber is believed to have contracted the contagion by handling mail which came from an infected town and which had escaped fumigation.
